
Technical Pension Services

LPP

Local Pensions Partnership

LPP's Technical Pensions team can help your scheme to stay ahead. With 40-plus years' experience, the team comprises experts with in-depth and up-to-date knowledge across LGPS, Firefighters' and Police schemes, together with other broader pensions regulatory and legal requirements.

With the increasing frequency and complexity of regulatory change affecting LGPS, Firefighters' and Police pension schemes, clarity around how these changes impact pension administration is critical. However, keeping on top of the constant stream of changes can be challenging.

How we can support your scheme

From providing regular updates on regulation changes and other developments to detailed guidance on how regulations affect a specific case, we will work in partnership with you to provide a flexible range of technical pensions support services that can be tailored to your precise needs, including:

- Drafting pensions committee or board reports to provide clarity around specific regulatory changes.
 - Attendance at Pensions Committee or Pensions Board meetings to support your usual officers, or in their temporary absence.
 - Preparing consultation responses.
 - Providing detailed regulation updates on a periodic basis.
 - Assistance with Lifetime and Annual Allowance calculations and communications.
 - Interpreting and providing guidance on the impact of regulation on specific cases.
 - Provision of updates on regulatory developments, which are also ready for integration into Altair document production.

About Local Pensions Partnership Ltd

LPP is a well-established pension scheme administrator in the public sector, servicing the pensions of around 590,000 members across nine Local Government pension schemes (LGPS), involving multiple employers, seven Fire schemes and one Police Scheme.

We help our clients and their members prepare financially for the years ahead, with our end-to-end pension services partnership covering Pension Administration, Asset and Liability Risk Management (ALM) and Investment Management and Advisory services. With sector-leading governance, a not-for-profit philosophy and client service at the core of our offer, our clients benefit from our active long-term stewardship of both assets, and risk and liabilities.
